

## The French activities related to IGBP (Abstract)

Jean-Claude DUPLESSY\*

French activities for Global Change include programmes related to both WCRP and IGBP, and they are jointly implemented. The main domains are:

- French Climate Research programme
  - participation to GEWEX, TOGA, WOCE, Climate modelling,
  - paleoclimatology, study of the CO<sub>2</sub> cycle,
- FRANCE-JGOFS
- programme on the major biogeochemical cycles
- programme on stratospheric ozone
- programme on terrestrial ecosystems
